Student Volunteer Systems—Connecting Educational Institutions to Caring

Student Volunteer Systems is an online technology solution that allows Universities, Colleges, High Schools, etc. to connect students and employees to quality volunteer opportunities. As part of a suite of United eWay tools, SVS provides a fully branded web presence to promote volunteer opportunities and events while taking advantage of a robust reporting system to track student interests and hours volunteered.

United Way is a historical leader in the volunteer arena, utilizing more than one million volunteers each year in all aspects of its operations and in communities across America. Drawing upon this experience and expertise, United Way of America has created a customizable tool that makes it easy, and cost-effective, to manage effective volunteer programs.

WITH SVS, STUDENTS AND EMPLOYEES CAN:

- Access a fully branded volunteerism portal
- Search online for meaningful opportunities
- Easily log their hours for any volunteer work they have performed
- Volunteer with other students at community sponsored volunteer events
- Provide feedback on their volunteer experience
- Create email alerts to receive interesting local volunteer opportunities
- And much, much more ...

ADMINISTRATORS CAN:

- Generate reports on total student impact
- Quickly identify “top” volunteers in terms of the number of hours
- Identify the social issues and/or groups with which students are most interested
- Approve hours and otherwise manage hours submitted by students for tracking purposes
- Organize and manage volunteer events
- Download online data into other popular applications like Microsoft Excel, Access or as an Adobe PDF file
- And much, much more ...
